

Upcoming Survey regarding PACT

In the next couple of days, we are conducting a survey for all PACT members, family and friends to fill out. The purpose of this survey is for the PACT committee to gain an understanding of what you, as members, want to see from PACT and for you to express any feedback that you may have. This survey is being run in partnership with 180 Degrees Consulting (180DC), a company that provides socially conscious organizations with consulting services. 180DC have provided a small team of high performing students from the Australian National University on a voluntary basis, with the support of senior professional mentors, to assist PACT with the survey.

It is important to note that this survey is completely anonymous and you will not be required to provide your name or contact details. However, at the end of the survey there will be an optional space for participants to provide these details, should they wish to discuss anything further in an interview.

The survey will ask for some information first, such as your age, when you were diagnosed with Parkinson's (if ever), and how long you have been involved with PACT. There will then be an opportunity to answer some broader questions based on PACT's activities and the organisation in general.

The survey will be made available to you via a link that will be posted on the PACT website, as well as on the PACT Facebook page and groups. The link will also be sent out via email. As well as this, if any participant wishes to fill out a hard copy of the survey, please let us know and this can be arranged.

PACT and 180DC encourage everyone to fill out the survey, those living with Parkinsons, family, carers and allied health professionals as the results will be extremely helpful in informing PACT's direction. If a membership has two members, we encourage each member to submit a separate survey response, so we can identify the differing needs. Both PACT and 180DC would love to see as many results as possible for this reason, and you are more than welcome to share the survey link to people who aren't members of PACT if they express interest.

Obviously PACT is a relatively small volunteer based organisation. However, PACT and 180DC are both hopeful that this survey will provide PACT with a better understanding of what you want as members. Please participate and if you have any queries or concerns, please email us at pact180dc@gmail.com!
